contact@andreimar.in

A passionate Software Engineer specializing in Frontend Development, leveraging a solid foundation in Information Systems gained through my BS degree from De La Salle University and consistent Dean's List recognition. My expertise spans modern frontend frameworks, responsive design, and user-centric interfaces, honed through hands-on experience in building scalable and intuitive applications. I thrive in collaborative, fast-paced environments where innovation and problem-solving are key. With a proven track record in project leadership and teamwork, my goal is to continue delivering impactful user experiences while driving technological excellence.
