A dedicated fourth-year undergraduate student pursuing a BS in Information Systems Degree at De La Salle University, I have consistently achieved Dean's List status. My academic journey has equipped me with a comprehensive understanding of Full-Stack Web Development, Mobile Application Development, Database Management, Systems Development, and Object-Oriented Programming. I have honed my leadership skills through managing various projects and thrive in team environments where collaboration and innovation are key. My goal is to leverage these skills and experiences in a challenging and dynamic role.

EXPERIENCE

Sep 2023 – Dec 2023

Web Development Intern | Baytech BPO

Worked under the FE Development Lead. Assisted and implemented FE tickets, added additional features to the projects, and improved UXUI.

Oct 2021 – Dec 2023

Director for Student Services | DLSU Computer Studies Government

Led the Student Services Committee, worked with the Computer Studies administration in creating and disseminating important announcements, and assisted all students under the College of Computer studies in their academic and administrative related concerns.

Nov 2021 – Aug 2022

Executive for Web Development | DLSU University Student Government

Co-Developed the University Wide Chatbot used by the students and applicants of De La Salle University.
